

Closing Remarks, Evaluation, Adjournment

Janice S. Lee, DDS, MD, FACS

Deputy Director for Intramural Clinical Research

Office of Intramural Research

Intramural Research Program
Our Research Changes Lives

ONE PROGRAM, MANY PEOPLE, INFINITE POSSIBILITIES

Importance of ChIRP for IRP

A secure LLM environment for:

- *Learning the new technology, including its limitations and responsible use*
- *Exploring its potential for advancing research*
- *Exploring its potential to streamline administrative processes and reduce administrative burden*

Accessing ChIRP

Chatbot for Intramural Research Program (ChIRP)
<https://chirp.od.nih.gov/>

The screenshot displays the ChIRP web interface. At the top, there is a header with the NIH Intramural Research Program logo, the ChIRP title, and a user greeting 'Hello Yang Fann' with a 'Logout' link. Below the header is a navigation bar with tabs: 'My Chat', 'About Chirp', 'Announcement', 'Training & Support', 'Contact & Acknowledgement', and 'Admin Tool'. The main content area features a sidebar on the left with a '+ New Chat' button and a list of chat options: 'SIO Scoring', 'GPT Chat', and 'Llama Chat'. The central part of the interface is a chat window with a text input field labeled 'Type your message...' and a blue speech bubble icon. At the bottom of the chat window, there are two dropdown menus: 'Select Model: GPT-4o' and 'Select Temperature: 0.7', both with information icons. A 'Print' button is located in the bottom right corner of the chat area.

Share Your Thoughts

- How was the event? What additional training would be helpful?
- Please take a moment to complete a brief feedback survey. Your input is anonymous and will help us organize future events.
- To submit an evaluation, please visit the [ChIRP Launch Event Survey](#) page or use your GFE smartphone to scan the QR code to access the survey.

Share Your Feedback about ChIRP

After using ChIRP, please tell us about your experience and additional capabilities you would like to be added.

Candid feedback from users is what makes a pilot grow and thrive. Your input is anonymous.

To submit an evaluation, please visit the [ChIRP User Experience Survey](#) page or use your GFE smartphone to scan the QR code to access the survey.

ChIRP Acknowledgements

Dr. Nina Schor Deputy Director for Intramural Research, Office of the Director

Dr. Yang Fann Director of Clinical Informatics, Lead for CRISPI, Office of Intramural Research
